

Student Research Grant

The Group of Photonics Engineering (GRIFO), at the Polytechnic School of Universidad de Alcalá, offers a grant for collaboration in research activities and development of Master Thesis in the Master in Photonics Engineering.

Research subject: Optimization of absorption in Solar cells

Conditions:

- 12 hours per week, 300 €/month, 10 months.
- 1500 € as help for the Enrollment costs
- Starting date: 1.10.2019.

Requirements

- Students already admitted into the Master in Photonics Engineering (www.uc3m.es/miphot)
- High academic marks
- Interest on research in Photonic Systems

Contact:

- Send CV, motivation letter and references to Fernando Naranjo (fernando.naranjo@uah.es) before June 20th, 2019.
